

Greenwings

Welcome to our latest newsletter!

The 2019 calendar below features the holidays which currently have places available to book. We also have a small number of holidays with special offers, that you may find appealing.

In other news we have recently launched a new exploration holiday theme, starting with a trip to the Rhodope Mountains in North Greece at the end of April, read on for more details...

Our exploration holidays are an opportunity to travel with one or more of our experienced team to explore entirely new areas, or familiar areas at different times of the year. They provide a real sense of adventure and fun, with surprises and new discoveries possible around almost every corner!

The lower cost of joining these tours reflects the fact that a tried and tested itinerary isn't available, although we will of course still have a well thought out daily plan of excursions. Rest assured that we will also have done significant research before these tours and you will still see plenty of great flora and fauna.

Every year we add new tours and this year we've added more than ever! For example, in April we head to the Gargano Peninsula in Italy, famous for its orchids & other wild flowers. In May you can visit Poland for a general wildlife tour, with a slight leaning towards butterflies & flowers! Or in June why not visit the Black Sea Coast in the far Southeast corner of Bulgaria for a slow-paced general wildlife tour?

For summer we've added more of our popular butterfly tours. You can relax on our one centre Slovenia holiday or explore the Italian Alps to seek out special species with our elite team Dr Martin Warren & Dr Simon Spencer! In July Patrick Barkham invites you to join him in the marvellous Picos De Europa in Spain, for what promises to be a fun and wildlife filled week! And if you want the ultimate butterfly holiday experience, we offer you Ecuador in November. A country home to around 4,000 species and we can expect to see 500 – 750 of those on our 18-day tour – an amazing number & an awe-inspiring experience!

We hope to greet you on a Greenwings holidays very soon!

An exciting 18 day butterfly tour in Ecuador, a mecca for butterfly enthusiasts & we should see an amazing 500 – 750 species on this very special expedition!
£4,975 per person, single supplement £595

Why choose Greenwings?

Our Leaders

We've deliberately placed this top of the list as we believe this is one of the main things that set us apart from other companies. We work with some exceptionally talented and experienced leaders. They are usually highly acclaimed expert naturalists and authors and have a huge amount of knowledge to share with you. Equally as important, they enjoy sharing wildlife experiences with our guests and always ensure your time in their care is as enjoyable as it may be educational – it is a holiday after all!

Conservation

What kind of wildlife holiday company could ignore conservation! Greenwings is owned and managed by people who love the natural world and want to protect it, so on our holidays we offer you the chance to 'observe & conserve' wildlife. From every holiday at least 10% of the profits are invested in conservation projects or donated to wildlife charities. We like to think that Greenwings and its guests can make a positive contribution together in this way.

Greenwings Guests

We're delighted and proud that so many of our guests are repeat 'Greenwingers' and return time after time and recommend us to their friends. Rewarding friendships between fellow guests, guides and locals, can be forged travelling with us. If you want to travel with like-minded people and enjoy some great wildlife, culture and history along the way, Greenwings is for you!

Booking your holiday with us

Please contact us or visit our website for full details of our holidays. They include a holiday description, photo gallery, recent trip reports and an up to date itinerary, plus more information on other aspects such as accommodation, travel, meals and the leaders.

Some of the comments received from guests this year...

If you wish to see amazing butterflies in beautiful surroundings with outstanding guides you can do no better than sign up for this tour!

South Africa 2018

Fulfilled our every expectation & more! We enjoyed the leadership of two excellent naturalists, spent each day eagerly searching new sites, with great success, & had every possible help with identifying not only the many orchids we found, but every other plant, as well as insects from gorgeous butterflies to beetles, and reptiles.

Rhodes Orchid Odyssey April 2018

I learned so much on my first Greenwings Wildlife Holiday! Macro specialist Matt was inspiring, encouraging and patient. He knew just where to look to find the best creatures and offered composition, technical and entomological insights in a way that made it all feel accessible. I appreciated his enthusiasm and consideration for the photography subjects. The trip was well worth the journey from the Pacific Northwest!
